

PRESS RELEASE

## Real Production and Vrebos open doors at Open Companies Day

Gembloux/Overijse, 18 September 2009. Real Production, in the Namur town of Gembloux, is opening its doors on Open Companies Day. Real Production is a partner of Overijse-based Vrebos, the largest installer of windows and doors in the greater regional area. Vrebos will also be showcasing its services on 4 October in Overijse.

Real Production, which was founded in 2006, was created as a production unit for installation company Vrebos and others. Vrebos has been installing windows, doors and verandas for more than 30 years. The Gembloux-based company's main activity is the assembly and preparation of the products. "This new company was necessary to be able to cope with the rising demand for PCV and aluminium windows and doors," says managing director Donald Vrebos. "Three years ago, we took the right decision to establish Real Production."

With demand continuing to rise, Donald Vrebos recently decided to build a second production unit, also in Gembloux. "Because of the rising demand in the market, we are going to split the production of PVC and aluminium. The new company, Real Win, will primarily be making the PVC products that Vrebos as well as other installers sells. Real Production will continue to be active in both PVC and aluminium products for the time being. Starting in mid-2010, that will change," Vrebos said.

On Open Companies Day, Real Production will be showcasing its production unit in Gembloux.

"We want to introduce the visitors to the many possibilities of producing windows, doors and verandas. We also want to show that we have become a very modern company over the years, with outstanding service being one of our top priorities," Vrebos said. "Our aluminium and our PVC products both have the CE label, which stands for excellent quality." Overijse-based Vrebos will also be opening its doors on Open Companies Day.

Earlier this year, Vrebos did a complete make-over on its visual identity, giving it a more modern look. Real Production will be harmonising to match that concept. "The new identity is completely in line with the new identity of Vrebos," the managing director said. "In a few months, the outside production companies Real Win and Real Production will be integrated into a website system, under the collective Group Vrebos name. We want to show that the production and the installation parts are completely independent of each other."

On Open Companies Day, Real Production will provide entertainment for the children and adults will receive a small token of appreciation. Address of Real Production: Rue des Poiriers 9, 5030 Gembloux. You can visit on Sunday, 4 October between 10 a.m. and 5 p.m. During the same hours, you can also visit Vrebos in Overijse, Duisburgsesteenweg 1A.
